BUSH IN LYON.

Opens Up On Cook With New and Most Serious Charges.

As Usual Judge Cook Admits the Facts and Tries to Explain Them Away.

In the joint discussion at Eddyville Monday, Judge Bush brought some new matter into his speech. There was a noisy minority of Cook men in the large crowd present, but Bush clearly had a large majority of the voters with him. The applause given him was general and liberal.

Judge Bush nailed Judge Cook about illegal allowances to his brother-in-law Master Commissioner in Calloway county and about his tampering with the Calloway county grand jury. He did not deny that the allowances were excessive in a single case referred to in the Calloway Times, or that the excessive allowances reached nearly \$500 in 30 cases, but claimed in a general way that his allowances had been no more than those made by his predecessors and said further that in some cases the allowances were fixed by the attorneys in the cases. Bush urged that that was no excuse, that it was the duty of the court to protect litigants, many of whom were widows and orphans, and not allow them to be imposed upon by lawyers. Bush said it was a funny argument for Cook to be making, as he had been urging that the lawyers, or some of them, were against him because they could not control him.

He said that he took all the grand jurors from the wheel and selected the number required because he wanted to get grand jurors from all over the county, when in fact five of them were within a radius of 3½ miles and three others were in 1½ miles of each other. Bush charged that after making up his jury unlawfully, he put a special judge on the bench and went to Trigg county to fill his appointments, but on the following Saturday a motion was made to set aside some verdict because returned by an illegal grand jury. That motion he said, was to have been acted on by Special Judge Flournoy, but Cook was summoned back from Trigg county and he left his appointments and to prevent the special judge from passing on that motion, resumed the bench and stayed there until court adjourned. Bush asked him why he left his appointments and went back when there was a special judge on the bench and he said he "had reasons" for it.

The Kentuckian has information that Lyon county is in good shape for Bush and will after the speaking this week be safe for him. Mr. Bush is expected home today and will spend the rest of the time in Christian county.

Cures When Doctors Fail.

Mrs. Frank Chissem, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for which completely cured me. I feel grateful to you for furnishing such a specific medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at R. C. Hardwick.

SPECULATION.

A Self-Made Merchant Gives His Son Valuable Advice.

George Holmes Lorimer, in his "Letters from a Self-Made Merchant to His Son" says some valuable things regarding speculation:

Now, says Mr. Graham, pork packer, Chicago, writing to his son, I want to give you that tip on the market. There are several good reasons why it isn't safe for you to trade on 'change just now, but the particular one is that Graham & Co. will fire you if you do. Trading on margins is a good deal like paddling around the edge of the old swimming hole—it seems safe and easy at first, but before a fellow knows it he has stepped off the edge into deep water. The wheat pit is only 30 feet across, but it reaches clear down to hell. And trading on margins means trading on the ragged edge of nothing. When a man buys, he's buying something that the other fellow hasn't got. When a man sells, he's selling something that he hasn't got. And it's been my experience that the net profit on nothing is nil. When a speculator wins he doesn't stop till he loses, and when he loses he can't stop till he wins.

You have been in the packing business long enough to know that it takes a bull only 30 seconds to lose his hide; and if you'll believe me, when I tell you that you can skin a bear just as quick on 'change, you won't have a beard of trade Indian using your pelt for a rug during the long winter months.

Because you are the son of a pork packer you may think that you know a little more than the next fellow about paper pork. There's nothing in it. The poorest men on earth are the relations of millionaires. When I sell futures on 'change, they regret that they are traveling light. I've got in the rate of one a second, and if the market goes up on me I've got the solid meat to deliver. But if you lose, the only part of the hog which you can deliver is the squeal.

I wouldn't bear down so hard on this matter if money was the only thing that a fellow could lose on 'change. But if a clerk sells pork, and the market goes down, he's mighty apt to get a lot of ideas with holes in them and bad habits as the small change of his profits. And if the market goes up he's likely to go down his self-respect to win back his money.

I dwell a little on this matter of speculation because you've got to live next door to the board of trade all your life, and it's a safe thing to know something about a neighbor's dogs before you try to pat them. Sure Things, Straight Tips and Dead Catches will come running out to meet you, wagging their tails and looking as innocent as if they hadn't just killed a lamb, but they'll bite. The only safe road to follow in speculation leads straight away from the board of trade on the dead run.

Of course the board of trade and every other commercial exchange have their legitimate uses, but all you need to know just now is that speculation by a fellow who never owns more pork at a time than he sees on his breakfast plate isn't one of them. When you become a packer you may go on 'change as a trader; until then you can go there only as a sucker.

LIVING WITHOUT WORK.

Gen. Booth Has Pronounced Views Upon the Giving of Charity.

Gen. William Booth, founder of the Salvation Army, does not believe in the ten-million dollar home which the late Winfield Scott Stratton proposed to build with his vast fortune.

In an interview he said: "It is all a mistake to give poor people so much charity. They should be made to work, for no one has the right to live on the product of another man's labor without giving proper compensation." It was remarked that the home was for the indigent poor and crippled, whereupon the general said: "I do not care if they are crippled; they should work anyway, for everybody can do some work. Even my wife, when she was in her last illness and paralyzed in her right arm, learned how to crochet with her left hand, and worked on a pair of slippers for me, finishing them within four days of her death. The Stratton home may be all right, but it is all wrong to get together a large number of men and women, clothe and feed them for nothing, and not require them to 'work.'"—Denver (Col.) Times.

Laughing Stock.

A rural citizen in Ohio has cows that laugh. Of course they are the laughing stock of the neighborhood.—Chicago Daily News.

Life Is At The Worst

For the woman who enters on that period known as "the change." Life that has hitherto run happily and smoothly is thrown from its accustomed groove by a sudden shock, which jars the body and distracts the brain. The suffering of women at this period varies, but while some escape with little distress, the majority of women suffer more or less acutely at this trying time.

Dr. Pierce's Favorite Prescription proves itself anew the friend of women at this crisis. It cures headache, backache, nervousness, sleeplessness and other womanly disorders, and perfectly and permanently re-establishes the general health.

A Woman's Recommendation.

"My physician said I was suffering from the effects of 'change of life,'" writes Mrs. M. Barker, of Falls Ferry, Shasta Co., Cal. "I had heart disease and intense trouble and rheumatism. My head was so dizzy I could hardly stand up. When I began to use Dr. Pierce's medicines I improved right along. I took seven or eight bottles of the 'Favorite Prescription,' a teaspoonful three times a day, and the 'Pleasant Pellets' at night. I feel as well as I ever did. I take great pleasure in recommending Dr. Pierce's medicines to suffering women. I think they are the best medicines in the world. I can say enough in their praise. The 'Favorite Prescription' cured me after I had been sick for two years so I was hardly able to be about."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines. His profit is your loss. Accept no substitute.

If a Good Fairy

Would only bring health to me—says many a man or woman afflicted with stomach troubles, blood disorders, or liver complaint. In many cases Dr. Pierce's Golden Medical Discovery is the good fairy which brings back good health, a strong stomach, pure blood and an active liver.

Most diseases begin with some trouble of the digestive organs or of the liver. Troubles of this nature starve the body, because they prevent it from receiving its proper supply of nourishment. Dr. Pierce's Golden Medical Discovery gives a man an appetite and a good digestion. Its great work is upon the stomach, large intestines and liver. These are the organs that nourish a man's body. This medicine makes them strong, vigorous and healthy. It fills the blood with the nourishment that builds new, solid and healthy flesh, muscle and nerves.

\$3,000 Forfeit!

Will be cheerfully paid in lawful money of the United States, by the undersigned, proprietors of Dr. Pierce's Golden Medical Discovery, if they cannot show the original signature of the individual volunteering the testimonial published below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

Here is the experience of only one among many:

DEAR SIR—A year ago I was troubled with dyspepsia; thought at the time that I had heart trouble and was expecting to die at almost any minute. I made up my mind to write to Dr. R. V. Pierce, which I did, and received a prompt reply, advising me to take his "Golden Medical Discovery." I took six bottles, and can truthfully say that I have neither heart trouble, nor dyspepsia now. I would advise all who are suffering from either trouble to write to Dr. Pierce at once.

You have my permission to publish this letter wherever you wish. Thanking you for your kindness, I am,

To Dr. R. V. PIERCE, Buffalo, N. Y. Very gratefully yours, MRS. LOIS HOOPER.

SIDEWALK AUCTIONS.

An Old-Time Custom That Still Survives in Washington.

"There is one custom of the old days still preserved in modern Washington which might be banished to advantage, as it has in other large cities, and that is the custom of holding auctions of household goods, furniture, merchandise, cars, carriages and vehicles of all sorts upon our sidewalks and streets," marked a police official the other morning to a Star man.

"The custom of ringing bells, proclaiming by crier that an auction is about to take place, showing a red flag and displaying the articles to be sold to the public gaze upon the thoroughfares has been handed down to the present generation, and originated centuries ago before the advent of the newspaper.

"In the days before newspapers, this manner of attracting the attention of the public was the only one followed, but nowadays the residents of any large community consult the classified advertisements in the columns of the local press to ascertain the days upon which auctions are held and where held, and the bell, the crier and the street obstructing display of goods have been relegated out of existence nearly everywhere in cities.

"For hours at a time on several days of the week the sidewalks of several of the capital's most prominent thoroughfares are littered from curb to house line with the goods in all varieties for the inspection of the public, and during the sale conducted on the sidewalk the passage of pedestrians is seriously impeded, while in the case of the sale of 20 or 30 vehicles collected in the street, traffic is interfered with. Such sales can be conducted in buildings much better than on the pavement, and the regulations ought to be amended to meet the times and the growth of the city.

"The business of adjoining merchants is seriously interfered with on the days in question, the vehicles exposed for sale being lined up in front of their premises as well as those where the auction is in progress, often remaining there for over a half a day, preventing the dispatch and delivery of merchandise of the adjoining firms. There are many other objections to the practice.

"Complaints made to the police of this interference of business are necessarily met with the reply that since there is no ordinance prohibiting the taking of the public sidewalks and pavements for the conduct of a private business, if it is the auction business, no relief can be afforded until the regulations are changed.

"If through custom, reinforced by ordinance, one class of business be accorded special privileges in the sale and display of merchandise upon the public thoroughfares, it is hard to reconcile the principle why other businesses are not similarly favored, yet, as to other businesses the law is very strict against the use of the sidewalks for the purpose of displaying goods. Sidewalks in cities at best are none too wide for the convenient passage of pedestrians, and were it not that city authorities jealously guard the public's rights along these lines, the serious obstruction thereof would result."

Wonderful Calculator.

Although calculating machines have been known since the time of Leibnitz, some two centuries ago, the astute of Rechenitz, a young Viennese mechanic, seems to be the first apparatus capable of working out unaided any ordinary problem in addition, subtraction, multiplication or division. While simple in construction, the working of the machine is not easily described, because each part performs several functions. The numbers are set down by moving buttons up and down slots until opposite the figures in order, and when the two numbers to be multiplied, for instance, are thus arranged in two rows, a large button is moved to the notch marked "Multiplication." The machine, driven by a motor or a weight, soon shows the figures of the product, stopping with the large button at a notch marked "Off." Some of the devices, such as that for carrying tens, are said to be quite new, and some processes, like that of trying a quotient and changing for another if too large, show a marvelous development of automatic reasoning.

RECORD OF THE PAST

No Stronger Evidence Can Be Produced.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Any one with a bad back, any reader suffering from urinary troubles, from any kidney ills, will find in the following evidence proof that relief and cure is near at hand. Mr. G. M. Myers, the well known shoemaker of Winchester avenue and 14th street, Ashland, Ky., says: "Doan's Kidney Pills are like true friends, the longer you know them the better they are appreciated. I can add nothing to the statement I first made in 1896 after I procured the remedy at the Ventura Drug Co., and took a course of the treatment, which cured me. I was absolutely free from all backache for nearly three years, then I noticed a slight ache, as the result of a cold, in my back. A box of Doan's Kidney Pills disposed of it. I have recommended this remedy to many, and have never heard of one who did not endorse the claims made for it."

GREATLY ALARMED

By a Persistent Cough, But Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, on Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured. Sold by C. K. Wily, druggist."

In almost every neighborhood some one has died from an attack of cholera or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for any one to take. Chamberlain's Cholera, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by C. K. Wily, druggist.

After the Negroes.

A mob in Santa Fe, Ill., hanged a negro who had assaulted a white girl and then attacked a colony of negro workmen, driving them from the village after a hard struggle.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it if it did not help, and if not, I would not pay a cent for it," says C. P. Rayder, of Pottsville, Mo. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by C. K. Wily, druggist.

The struggle between Russia and China for the Manchuria country threatens to bring on most serious complications.

President Roosevelt has returned from Yellowstone Park and will be in St. Louis a day or two before returning to Washington.

King Edward and King Victor met in Rome this week and kissed each other four times. It goes without saying that they were glad to see each other.

The "hello girls" of the Cumberland Company at Henderson, who struck for longer dinner hours, have gone back to work. The company opened a lunch stand in the exchange as a concession.

Gov. De Forrest Richards, of Wyoming, died Tuesday of kidney disease, aged 57 years. He was succeeded by Fenimore Chatterton, Secretary of State, as Wyoming has no lieutenant governor.

The President's speech in favor of large families, is causing much comment from the female suffragists. Most of them take issue with Teddy and give him to understand that he does not understand the baby problem. Mrs. Mary A. Livermore says "the need is not for more children, but better ones."

Wm. R. Hearst, editor of the New York World, and a Democratic congressman, was married Tuesday to Miss Millicent Willson, of New York. Mr. Hearst is 39 and his bride 21. His bride is an actress and a noted beauty of the blonde type.

It is said the largest dam ever constructed has been built across the Nile in Egypt. After the gubernatorial nomination has been pulled off, the editor of the Kentuckian hopes to find time to write a series of very interesting articles about this wonderful achievement.

Those who are disturbing their little inwards to know what the Kentuckian is going to do about it, will learn in due time. There are many things besides politics for an editor to write about and there are always places in the rear ranks of the green squad for those who tote a gun while others wear the shoulder straps.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

TEN POTENT REASONS.

Here are ten of the many reasons why Judge Cook should not be re-elected:

1—He is on record as opposing the endorsement of Judges Linn and White.

2—The management of his campaign in Christian county presents a strong local reason for opposing his aspirations.

3—He has been reversed in 30 out of 49 of his cases appealed to the higher court.

4—He has in four instances misused the trust funds in Trigg county to the aggregate of \$1,473 and pleads ignorance as his excuse for violations of a criminal statute, the maximum penalty for which is \$1,000 fine in each case.

5—He is accused of allowing a fee of \$500 in a Lyon county case when the legal fee was only \$100.

6—He is accused of allowing his master commissioner in Calloway county, who is his brother-in-law, allowances in 30 cases in excess of the legal fees to the amount of \$468. This charge he has admitted and his only explanation is that in his opinion the services were worth more than the legal fees.

7—He is charged with making up the grand jury in Calloway county last month in a manner flagrantly violating the law, "picking" names instead of drawing them from the wheel. He admits the charge in an affidavit filed in the Calloway court.

8—He is accused of voting for J. H. Farless, a Republican, in a local race, over Democrats, and admits the correctness of the record.

9—His campaign manager in Calloway county voted and worked for Breathitt over Linn for judge in 1895 and helped to defeat the Democratic nominee.

10—His nomination would force the Democratic party to make a defensive campaign in a close and doubtful district.

These reasons are based on his record, to which he invited attention. They are not personal or presented in a factious or unfair spirit. They are weighty reasons why Judge Cook should not ask to be again put forward as the nominee of his party.

TEN BUSH REASONS.

The following are some of the reasons why C. H. Bush should be nominated:

1—He is a man of superior ability and profound knowledge of the law.

2—His county has not had a (Democratic) judge since 1868, more than a generation.

3—His record as a Democrat is without a flaw and he has merited the honor.

4—Christian county is the largest county in the district, has court four months in the year, and does one-half of the business of the four counties. It is therefore entitled to the judge.

5—Judge Bush is a lawyer and not a professional politician and if elected it will be to be a just judge and not a spoilsman.

6—The lawyers of the district are almost solid in his support. The members of his own bar are for him, with but very few exceptions.

7—He has held himself aloof from factions and could poll the full strength of his party.

8—His qualifications are admitted by all and his claims should be universally recognized by his home people.

9—His nomination would be equivalent to an election, since the Republicans of Christian county who are probably aspirants, would not run against a Christian county man.

10—He is the best man for the place.

TEN CALLOWAY REASONS.

1—Because he is an upright and honorable gentleman.

2—Because he is a man of ability and worthy of the honor he seeks.

3—Because he is an able lawyer of long experience and would make a good judge.

4—Because he would be Judge himself and have no pets nor bosses.

5—Because he would deal out "blind justice" to the rich and poor alike.

6—Because we need a judge who knows the law and would not have to plead ignorance.

7—Because he would not make excessive allowances to, and then

Peculiar To Itself

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of **Hood's Sarsaparilla**.

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came nearly losing my sight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." **SENSE A. HARRIS, Withers, N. C.**

borrow money from his Commissioner.

8—Because he would draw his injuries as the law directs.

9—Because he has never asked for office before and says he would not ask to be re-elected.

10—Because he can be elected in November.—Calloway Times.

The Supreme Court of the United States has refused to take jurisdiction over the question of negro disfranchisement, in a case appealed from Alabama. This leaves several southern states with constitutions limiting negro suffrage. This settles the question, except that Congress threatens to make votes and not population the basis of representation.

A Hopkinsville man who spent a day or two in Calloway this week, says that county is absolutely sure to give Bush a majority that may go to 500. The excitement is equal to the closing days of a presidential campaign and thousands of Bush's pictures are to be seen all over the county. Many business men are devoting practically all of their time to pushing his canvass, and even the women and children are talking for him on every hand.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured and hopeless resignation is no longer necessary. Price 50c. and \$1.00. Trial bottles free.

Jolly For Gary.

Our personal friend, Mr. Geo. E. Gary, has been elected chairman of the Christian county Democratic committee. Accept our congratulations, friend Gary.—Elkton Progress.

Not A Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass, of Fremont, N. C., writes. Only 50c. at R. C. PEACE REIGNS

After a Good Deal of Splutteration.

The tempest in the teapot over the recent election of a new chairman of the county committee and the dissatisfaction over some of the election officers has subsided. The losing side attempted to get up another meeting of the county committee to reopen the matter, but finally concluded to confer and the differences were adjusted without difficulty. The Cook men were given one more sheriff in Hopkinsville, making the city sheriffs stand two and two, and the entire committee has acquiesced in the election of Chairman Gary, who also becomes chairman of the District Committee. The Kentuckian is glad that wiser counsels prevailed and that both sides finally agreed to act sensibly and harmoniously.

Doesn't Respect Old Age.

It's shameful when youth fails to show proper respect for old age, but just the contrary in the case of Dr. King's New Life Pills. They cut off maladies no matter how severe and irrespective of old age. Dyspepsia, jaundice, fever, constipation all yield to this perfect pill. 25c. at R. C. Hardwick's drugstore.

PROF. FUQUA

Looks Like a Sure Winner For Superintendent.

In the race for the nomination for Superintendent of Public Instruction, Prof. Jas. H. Fuqua, of Logan county, is leading his opponents by several lengths. Prof. Fuqua's long service in the schools of Kentucky has especially fitted him for the position he seeks and his nomination is now almost assured. One thing that makes Prof. Fuqua especially strong in Christian county is that he will make Harry G. Tandy, a native of this county, his chief clerk. Mr. Tandy is now in Western Kentucky, making an active fight for his man and is doing some telling work.

The ladies wonder how Mrs. H. manages to preserve her youthful looks. The secret is she takes Prickly Ash Bitters; it keeps the system in perfect order. R. C. Hardwick, special agent.

MRS. LUTGERT ALIVE.

Said to be Living in South Carolina Forest.

Mrs. Louisa Lutgert, whose identity for six years has been as much a mystery as the exact whereabouts of Charley Ross or Willie Tascott, has been found again.

Attorney J. C. Sims, of Spartansburg, S. C., has written to Lawrence Harmon, who was one of Adolph Lutgert's lawyers during the sausage maker's murder trial in Chicago. Mr. Sims says that Mrs. Lutgert is living in a turpentine forest near Spartansburg, and that she would have revealed her whereabouts sooner if a gang of men that had kidnaped her had not held her for a \$25,000 ransom.

An appeal to the Supreme court was granted, however, and as the case will not be reached before December, if the lower court is affirmed, it is not likely that the execution will take place before sometime in 1907.

NEW STATUTES.

Plaster Commissioner's Allowance Explanation That Does Not Explain.

Judge Cook lamely tried in last week's Ledger to explain away the commissioner's allowance article in the Times, but his explanation explained nothing. He says that Randall, Grace, Breathitt, etc., made just as large allowances. We grant that that is true, and that Judge Cook can show a list substantiating it, but here is the milk in the cocoanut: Section 1740 of the Statutes was enacted to prevent just such things, and Judge Cook well knows that under each of said Judges, Section 1740 was not operative, that it only went into full force and effect with his term of office, and that it was enacted by the legislature for the purpose of preventing the very things he cites under his predecessors and that these and similar extravagant allowances elsewhere in the State were the cause of this section becoming a law, and that it went into full force with his term.

Now Mr. Cook will you plead ignorance of this law or still try to blind the people by telling them that others did just as bad or worse under the old law?—Calloway Times.

Meeting Closes.

The revival services that had been in progress at the Methodist church during the past three weeks came to a close last night, though there will be a service this evening at the church in the interest of religious movements. There have been large crowds in attendance upon the services, and numerous conversions and a large number of additions to the church. It has been one of the most interesting series of meetings held in the church here recently. Rev. J. L. Clark, of Paris, Ky., who has been conducting the services, left for his home this morning.

I have used it myself for colds and catarrh of the bowels and it is a splendid remedy. It restores vitality, increases bodily strength and makes a sick person well in a short time. I give Peruna my hearty indorsement."—Fred D. Scott.

Gen. Ira C. Abbott, 660 M street, N. W., Washington, D. C., writes:

"I am fully convinced that your remedy is an excellent tonic. Many of my friends have used it with the most beneficial results for coughs, colds and catarrh tonics."—Ira C. Abbott.

Mrs. Elmer Fleming, orator of Reserve Council No. 168, Northwestern Legion of Honor, of Minneapolis, Minn., writes from 2205 Park street, N.E.:

"I have been troubled all my life with catarrh in my head. I took Peruna for about three months, and now I am permanently cured. I believe that for catarrh in all its forms Peruna is the medicine of the age. It cures when all other remedies fail. I can heartily recommend Peruna as a catarrh remedy."—Mrs. Elmer Fleming.

Treat Catarrh in Spring.

The spring is the time to treat catarrh. Cold, wet winter weather often retards a cure of catarrh. If a course of Peruna is taken during the early spring months the cure will be prompt and permanent. There can be no failures if Peruna is taken intelligently during the favorable weather of spring.

As a systemic catarrh remedy Peruna eradicates catarrh from the system wherever it may be located. It cures catarrh of the stomach or bowels with the same certainty as catarrh of the head. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Mexican Mustang Liniment

is excellent for Rheumatism and all deep-seated pains.

For Sprains and Strains

It is useless to apply a liniment that remains on or near the surface. On the contrary, they require something that goes down into the flesh where the trouble is located. That is why

Mexican Mustang Liniment

is the best thing to use for sprains and strains. It penetrates at once to where the injury lies, drives out the inflammation and breaks the wounded tissues and tendons. Don't be stung in using the liniment now call to rub it in as thoroughly as the soreness will permit.

Mexican Mustang Liniment

is a good thing to have on hand when accidents happen.

A MAN WITH A RECORD.

Put to Shame the One Who Relied Upon His Memory.

"I flatter myself that I keep track of the weather about as well as the bureau man himself," said a resident of Jefferson avenue the other day as he looked up to note the state of the heavens, according to the Detroit Free Press, "and I feel humiliated at what happened on the car yesterday morning. Three of four of us were talking about the weather for the past winter, and I mentioned that we had nine very cold days in December. An old chap across the aisle who had been listening to our talk dives down to his pocket and pulls up a memorandum book and softly says: 'My dear sir, I think you are mistaken. We only had three cold days in December. I have the record here. It was December 22, 23 and 24.' 'I ignored him,' said the oracle, 'and remarked to my friends that January 8 and February 19 were the two coldest days of the winter. 'I beg your pardon, sir,' put in the man with the book as he held it up against his nose to see. January 8 was so mild that I went without an overcoat, and on February 19 the thermometer marked 41 degrees above.' 'I tried to save my reputation by announcing that we had had 28 days of sleighing in Detroit during December, January and February, but that book went up to the old fellow's nose again and he replied: 'No doubt you mean well, but you are mistaken again. We have only had 24 days, and three of those were very poor.' 'You may have heard the birds singing alone about January 17,' said I, thinking to get even with him. 'No, sir,' he blandly replied. 'From the 17th to the 23d it was fairly cold, but on the 23d the birds began to start on my roosebush.' 'The old chap lied—deliberately and maliciously lied—and I knew he did,' said the weather-wise man with bitterness, 'but what could I do? He had the record in his little book, while I had nothing, and before that car got down to the woodward avenue my reputation as an oracle was knocked into a cocked hat, and my fellow passengers were regarding me with pity and contempt.'"

A QUEER DOCTOR.

Writes a Queer Letter to the Pension Authorities in Washington.

The officials of the pension office receive some queer answers to the letters of inquiry sent out over the country regarding pension claims. It becomes necessary for the officials of the bureau to communicate with the neighbors and relatives of a claimant to ascertain whether or not the claim made against the government is just and whether or not it should be allowed. It frequently becomes necessary to call on the physicians of the claimants for evidence as to their ailments, and it very often happens that these physicians are men who have never received a diploma in medicine and whose title to their degree is through the courtesy of their patients only. It became necessary, says the Washington Star, several weeks ago to communicate with a "doctor" living in North Carolina as to the condition of one of his patients who had claimed a pension, and who alleged he was in a very bad way as a result of his service for his country. The following reply received a few days ago from the "doctor" in question is characteristic of the character of replies received at the bureau frequently: "While milking my cows. To come to me and see me I feel a misery in my insides I give him sun medicine which don't him know good, and He Never will see if the government don't cum to his Relief. "docteur Brown, North Kline."

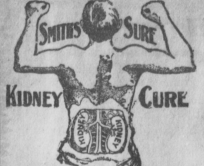

"I never seen the pashant until he was berried, he died from the service of which you have his alimant in your Barn but his mother said this is the case. "I never seen his mother, she is ded for a long time. The pashant had no father his mother was a widow and old."

Cancer Cured by Molasses.

Two cases of cancer have been cured in Queensland by the use of molasses. A Mr. Braun suffered with a growth at the root of the tongue which nearly choked him. He took molasses for ten days and the cancer completely disappeared. A man named Crabbe also cured himself by the same means.

T. L. Metcalfe had the handsomest float in the parade. It consisted of a big float decorated in flowers and evergreens. In the midst of the floral bower his little son, Thomas, sat driving two large white swans, life size, with lines of ribbons. It was a beautiful display of his greenhouse and laundry products, and richly deserved the first prize.

Yes I found my cow by advertising her one time in the Kentuckian. It seems to be read by everyone who knows a cow from a goat. I judge by the number of people that reported that they had noticed a stray cow. If you wish to find anything you want, try advertising in the Kentuckian. A. W. PYLLE.

TRUSTS!

Are the natural enemies of the farmer. When he goes to sell the products of his farm he wants as many buyers to compete for these commodities as can be obtained. Then when he wants to make a purchase of an implement he doesn't care how many sources present themselves from which he can buy. The more, the better for him. To illustrate, if he wants a binder he will find that the Deering, McCormick, Plano, Milwaukee and Champion are all in a combination and afford him no competition.

THE OSBORNE

IS THE ONLY binder obtainable in this county that is not in this combination. The farmer's only hope to get binders in future at reasonable prices.

Helping the Osborne Company means fighting the trusts. The owner of the big Osborne Machine Company made speeches all over the State of New York last year against trusts. He is a man of the people, for the people, and his binder is the binder for the people. If his company goes down under the assaults of the trusts, the farmer has no alternative but to buy trust binders.
